

## **BGS Transfusion to return to Nottingham in 2024**

BGS Transfusion will again take place at the University of Nottingham's Jubilee Campus, from 22nd to 24th April 2024. All lectures, meals and accommodation will be on site within easy walking distance. The whole campus is fully disabled compliant and adapted bedrooms are available.

The campus is easily accessible by road, rail and air. All facilities being used are within easy walking distance surrounding the picturesque lake.

The conference will follow its usual format with cutting edge lectures, workshops and case studies. We will be including some simultaneous sessions to cater for all levels of transfusion knowledge and interest. There will also be a chance to hear from our commercial colleagues during some short presentations on what is new within their companies.

Being on campus you will be able to attend the commercial exhibition and on-site social events giving plenty of chance for that all important networking.

We will have some subsidised places for junior staff, students, multi-disciplinary staff and returning to work.

**22nd to 24th April 2024**
