

Do we know who they are?
SHOT webinar on positive patient identification for safe transfusions in adult's
Tuesday 11th July 12:00 - 13:00 BST

SHOT is pleased to announce our webinar covering practical steps for accurate positive patient identification in adults

This 60-minute webinar is free to access and will include:

A 40 minute presentation about positive patient identification - including case-based presentations by SHOT experts including: wrong blood in tube errors, PPID from a patient perspective, laboratory aspects, common themes, lessons learnt and resources available.

The patient's perspective: a patient representative

A 10 minute interactive Q&A session

An excellent opportunity for CPD through reflective practice

This webinar is relevant to healthcare professionals involved in transfusion - nursing staff, laboratory staff, clinicians, transfusion practitioners, as well as haemovigilance and risk management specialists

Register for the event here:
