TP-Collaboration/feedback/engagement

NHS Blood and Transplant

Transfusion 2024

1. Jan-Feb 2025

Ask TP steering group and working group to connect to networks to share the list of resources (Frameworks, competencies etc) already pulled together and to ask if there are any additional ones they can share for consideration (including from origin professions) .

2. Feb-May 2025

Plan discussion events (up to 4, facilitated by JR) – activity to understand why people do their job (to create values statement), explore what has been agreed so far from the project engagement with TPs ,clarify skeleton structure, concept and purpose of Prof Dev Framework, discuss levels of practice and activity to agree on purpose statement

3. Sept-Nov 2025

Share sections with the NTPN and ask for feedback from TPs via anonymous survey

4. Jan 2026

Once complete draft has been co-created, send out to all TPs (invite TPs from across UK and ROI, people supporting the development of them, operational and strategic leads) for consultation

5. Mar-April 2026

Share final draft version with NTPN gather reflections from group / celebrate / close project but identify potential next steps including implementation, regular review of the Framework (and the process for doing so)

Please note events will be virtual- they will be held a different times to Ensure collaboration and feedback from as many TPs as possible. Invites will be sent via NTPN administrators. Proposing to use Padlet during the sessions.
